

PARENTAL GUIDANCE

THOMAS HIRSCHHORN

IT'S BURNING EVERYWHERE

We are proud to present three works by the internationally acclaimed artist Thomas Hirschhorn. *It's Burning Everywhere*, developed specifically for the DCA Gallery 2, *The Unforgettable (Substitution 2)* in Gallery 1 and works from his «*Ur-Collage*» series in the ancillary space.

We acknowledge that this material may be upsetting for some visitors.

Each piece, especially *The Unforgettable (Substitution 2)* and the works from «*Ur-Collage*», addresses and contains uncensored images of contemporary war gathered from media coverage. The intention is to address the full consequences of war.

It is an immersive experience; a bombardment of information including some difficult images, that is deliberately confrontational and intense.

The education team would like to highlight our activity room, which is open every weekend throughout the year.

Should you wish to visit the exhibition without your child, the Activity Room will be open during gallery hours providing unsupervised art activities for children.
