

# Word Play

- **Make a list of words**

These could be your favourite words, words selected at random from a book or words that jump out at you from packaging, magazines or signs.

- **Pick your words**

From your list of words select two that you think work well together.

- **Turn your words into art**

Sketch out your two words in the space below. Experiment with how they fit together and play around with making your own font. Once you are happy, colour them in, paint them or use cut out letters to create your text artwork.

Share your finished piece with us using **#DCAmakes**
