

# Bold New Banknotes

Cut these banknote templates out and design your own money. Most countries have notes for 5, 10, 20 in their own currencies. You can make banknotes for millions if you want!

Every currency has its own symbol, like the examples below. You can copy these or design your own symbol for your new currency, for your own country.

Remember banknotes have images on both sides. Will you draw a famous person on yours? What other pictures are on banknotes?

Sterling

Euro

Dollar

Yen
