

Art van

France-Lise McGurn's exhibition, *The Charm Offensive*, features a van that she has painted on and placed a painting in the back of. She was inspired by one of her memories of a dirty van with a picture of a pop star stuck inside the door. The difference between the glamorous singer and the dirty van made France-Lise think about opposites you find in a city.

- Be inspired by a memory, what you see around you or the idea of opposites and draw on the van below.
