## DUNDEAD 2024 Thu 16 - Sun 19 May

### Dundead Opening Film: Sting

We're very excited to be opening the festival with the UK premiere of this fun creature feature.

### Skinned Deep

Just the kind of trashy should-be-cult-classic that we love at Dundead, screening for its 20th anniversary.

### Humanist Vampire Seeking Consenting Suicidal Person

A genuinely empathetic and heartwarming spin on the vampire myth.

### The Slumber Party Massacre Double Bill

A look back at two fun 80s slashers that were completely ahead of their time.

### Candyman

1992's Candyman brought a certain gothic gravitas, as well as contemporary social commentary to the slasher subgenre.

### Falling Stars

An ambitious, intriguing and unsettling debut feature from directors Gabriel Bienczycki and Richard Karpala.

### She is Conann

A queer, feminist glitter-punk subversion of the Conan the Barbarian character, this stylish epic blazes with imagination.

### Scream

In 1996, Wes Craven turned the horror genre in on itself with this funny, playful and violent self-referential slasher.

### Blood and Black Lace

This landmark 1964 film from Italian master Mario Bava is arguably the first film of the giallo subgenre.

### Booger

This debut feature is a bold, fresh and innovative film which irreverently plays with the conventions of horror.
